

# A.T. CONSULTANTS

WORKING HAND IN HAND WITH YOU!

# Who we are

ATCONSULTANTS is a Structural Design Office with 20 Years' Experience in the Engineering Industry.

Since our incorporation in 1997, we have grown from a national organization to a multi-faceted, international presence in the industry, with projects in Kuwait, Cyprus, Greece and other countries.

We have team in **Greece** and **Kuwait**.

Office in **Greece** consists of 4 experience engineers and 4 drafts mans in permanent base.

Office in **Kuwait** consists of 2 experience engineers and 2 drafts mans who knows the market and work closely with the Constructions needs.

However our team can be increase by a net of external experience colleagues in order to complete the projects requirements.

# Who we are

A.T. Consultants plays a relevant role in the building of **major highways, underground tunnels** and other important infrastructure projects.

We are at the forefront of designing, consulting and supervising the most highly desirable and notable projects in various countries.

Our company philosophy based on integrity, quality, innovation and continues improvement. With the experience of so many years, we are able to guarantee the result.

# Who we are

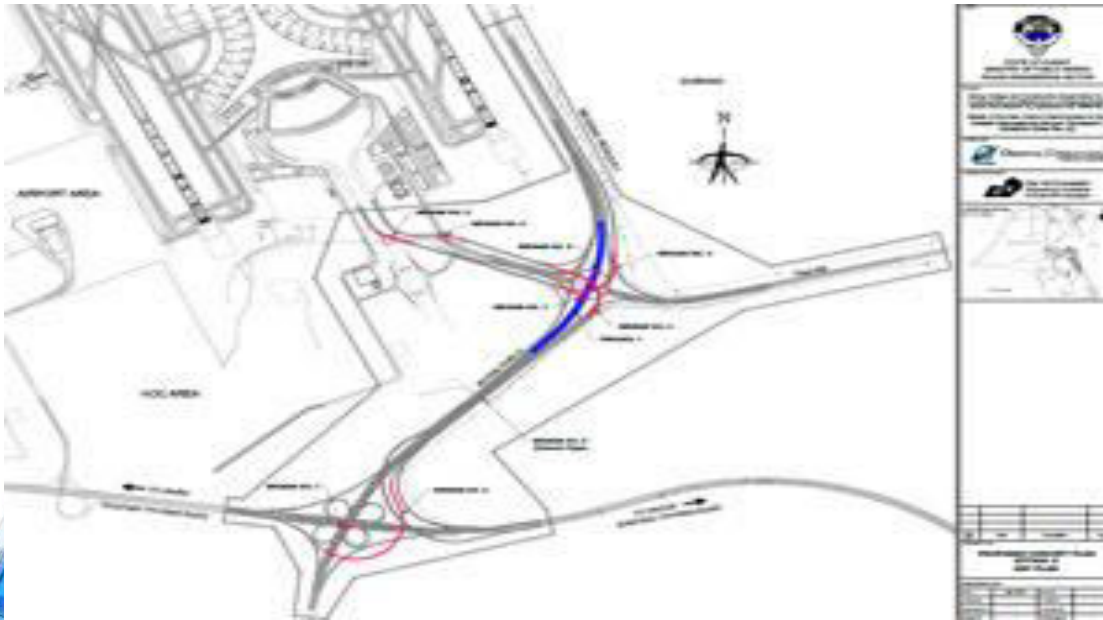

Our strong asset as a Structural Design Office is keeping up with the latest technology so as to provide a reputation of high quality service to our multi national clients.
